

## Large Extension to a Listed Executive Home

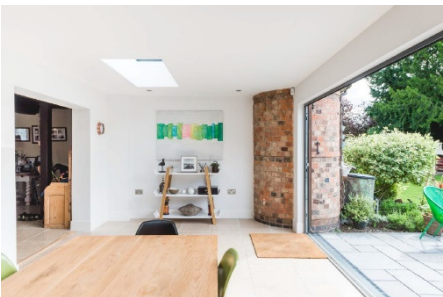

**Client:** Private Client  
**Location:** Cropston, Leicestershire  
**Value:** £55,000

**Project Detail:** A prestigious extension to an executive home using tailored copper cladding. The extension was built upon a timber structure and the project focused upon keeping the character and charm of the building.

Highly specified internal finish and kitchen design gave the extension a fitting contemporary feel throughout, aided by the appeal of the copper cladding.

The overall finish of the extension, with the 3 panel bi-fold door, allows the living area within to fuse with the outdoor space creating a fantastic asset to this already impressive home.
